Ben Hur

Ben Hur is one of silent Hollywood's greatest epics, and the most expensive film produced in that era. Although Cinequest normally looks to the future, annually we turn back to the roots of film language and storytelling where the technologies were sprocket celluloid, carbon arc burning dual projectors, and organists. Step into the glamorous era of the 1920s and enjoy the gripping experience of *Ben Hur*. You might very well agree with many critics that the original overshadows all the remakes. Taking the experience to the ethers, virtuosic organist, Dennis James provides the soundtrack and the emotions via his accompaniment.
